ASolutions **MS-TestPro**

The worlds only HDBaseT[™] **Certified Tester**

The MS-TestPro is an all-inclusive, comprehensive HDBase™ diagnostics tool that enables any AV integrator to carry out start-to-finish analysis of entire HDBase™ systems in the field, providing detailed results and certification documents for clients. HDBase™ monitoring, logging, full signal diagnostic functionality, and a built-in HDMI test pattern generator, the MS-TestPro provides vital cable infrastructure testing with unrivalled troubleshooting capabilities for the integrator. For our partners the MS-TestPro becomes an indispensable tool that saves their business significant time and money on any HDBase™ installation.

Key Features:

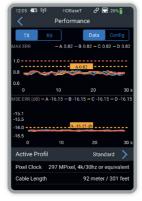

- The ONLY HDBaseT[™] certified tester in the market
- Effortless certification for 4K infrastructure in 10 seconds or less
- · Certify new and existing cabling infrastructures for use with HDBaseT[™] equipment
- Mains / battery powered with 4 hours testing off a single charge
- · Military certified- No Wi-Fi connection on board
- Easy to use integrated video guides and user manuals
- · Log-file analysis provided by an MSolutions professional
- Free firmware updates allowing for new features to be added
- Expansion modules available to include: DC Resistance testing, HDMI cable testing, HDBaseT[™] spec 2.0, and, AV over IP testing
- MS-TestPro is available in two versions:
- MS-104B with HDMI pattern generator 4K 4:2:0 60
- MS-106B with HDMI pattern generator 4K 4:4:4 60

Performance Data

Live-stream monitoring of individual twisted pair performance over the HDBaseT[™] link allows for signal quality to be viewed in real-time

HDMI Pattern Generator

Capable of generating a test pattern at a number of

differing video resolutions/refresh rates, when no

source device is available
